## BIRTH *for very lucky babies*

It all started with our Birth Baby Book—a classic yet modern take on the genre. Beautiful woodland illustrations will lead you from the day of birth through the 3rd birthday celebration.

With ample room for photos, and to jot down thoughts and memories.

Our book became an instant classic and a must-have for the modern family.

*“So you don’t have a kid? This book will make you want one. I’d been eyeing it online (trying to decide whether it was too pricey for a baby book), then I got a copy. I opened it and gasped. You will want to caress this book, it’s that good.”*

—Margaret Marson, “Mighty Goods” Shopping Blog

*“Binth makes the most beautifully modern and perfectly laid out baby book on the planet as far as I’m concerned. I love the fresh look and the woodland illustrations are gorgeous.”*

— Lisa Moss, Cocoa Crayon Founder & Mom

*and because everybody asked for it...*

We are back on press with the fourth edition of our baby book. Along with the classic green, we are now offering the book in a second color: chocolate.

We’ve also added 12 more blank photo pages and best of all, we lowered the price! As always, The Binth Baby Book is printed by craftsmen right here in the

USA. We are now using custom matched soy-based inks on recycled paper. Our hard cover book is then hand assembled and case bound with a little white ribbon.

*“Instant heirloom. Truly stunning. Best baby book ever. I am deeply in love. Think of someone really wonderful to give this to.”*

— Gabrielle Blair/Design Mom Blog
